What could the application process look like?

Work will be completed by Trustmark registered installers, working on behalf of E.ON, and overseen by the Council. Following your application, Marches Energy Agency (MEA) will need to check that you are eligible for the scheme. If you qualify, MEA will pass you to the approved contractors who will book in a date to survey your property.

Your household is likely to qualify if you meet all these conditions:

You do not have a mains gas heating system*
(i.e., you may be using electricity, solid-fuel, oil, LPG to heat your home.)

You own the home you live in

Your home has an Energy Performance Certificate (EPC) of D, E, F, or G
(You can still apply if you do not have one or are unsure.)

Your household's combined annual income is under £36,000 (before tax), or you receive a qualifying means tested benefit

*Limited amount of funding is also available for households using Mains Gas that meet the rest of the criteria above on a first come first served basis.
